COVID-19  
Response

Helping  
companies  
rebuild

- Floor Graphics
- Window Decals
- Lobby Signs
- Plexiglass
- Defining Workspace
- Banner Stands
- Parking Signage
- Site Signs
- Educational Signs

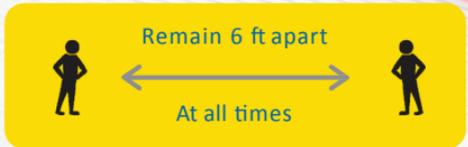

## Floor Graphics

Floor graphics inform customers of the distances they need to be apart from others.

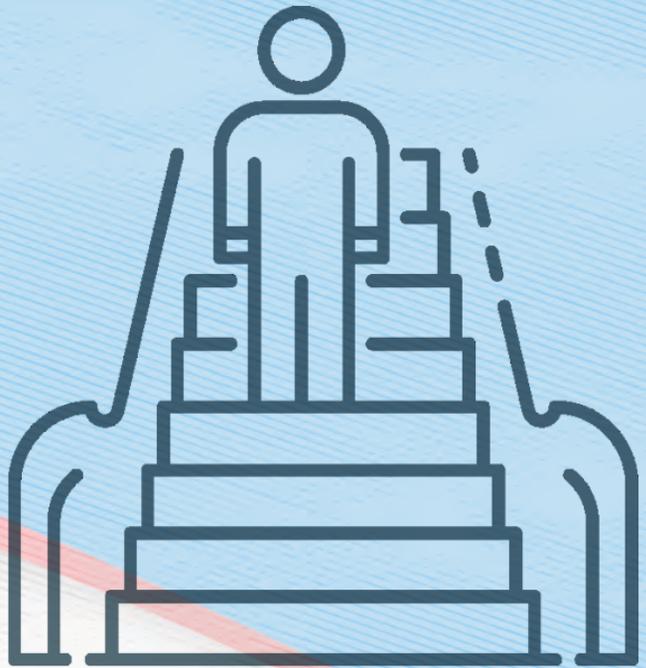

All graphics have rounded corners and are slip resistant.

Rebuilding a community takes a huge effort and does not happen overnight but by doing our part, we can help save lives.

## Floor Graphics

## Window Decals

Setting the standard before customers even walk in the door will help the dismay they may feel when encountering this type of behavior within a building.

## Attention Shoppers

Please help us with ensuring the 6 foot rule and limit contact with associates and fellow customers.

Entrance  
closed

Please use  
other door

## LobbySigns

Lobby signs stand out when customers are looking for direction within a building. This can also defer people from having to verbally ask the question of where to go, keeping employees from having unnecessary conversations with others.

Print

## Plexiglass

Protective Screens & Sneeze Guards will soon be the norm in the following:

- grocery check out lanes
- customer service counters
- retail counters
- medical reception offices, etc.

Installing these self standing dividers will protect employees as well as customers from spreading germs.

## Defining Workspace Areas

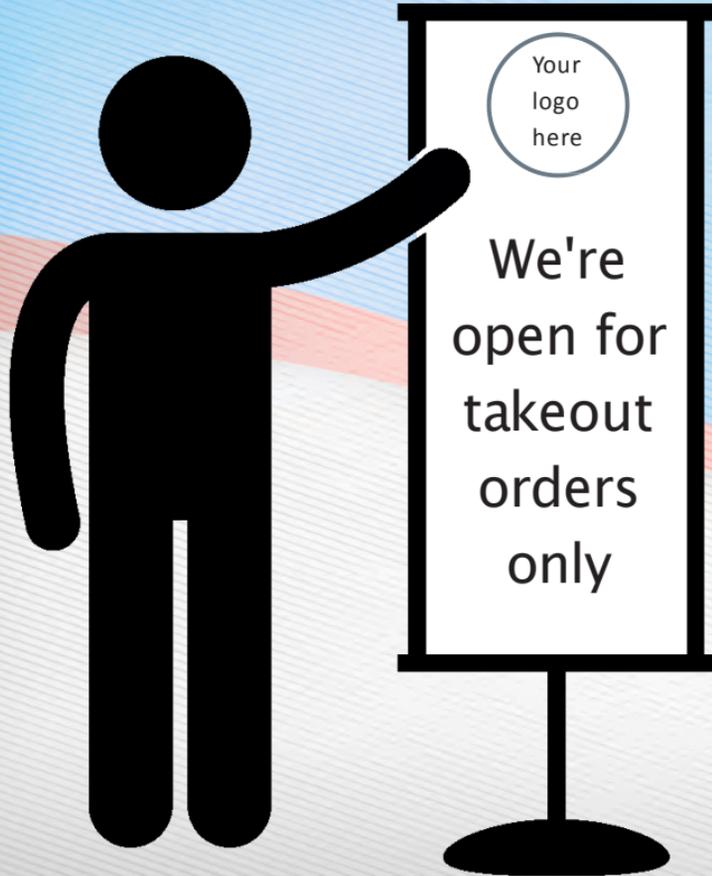

**CLOSED**

**EMPLOYEES ONLY**

**SHIPPING**

## BannerStands

ENJOY THE PARK SAFELY  
STAY 6 FEET APART

Maintain a physical distance between you and others at all times

**DISTANCE**

Please follow social distancing rules

## Parking Signage

Save people time and effort by letting them know something is closed before exiting their vehicles.

# Site Signs

Catch the eye of people who are driving by.  
Use site signs to let people know that you offer delivery/pickup services.

## Educational Signs

**PLEASE WASH  
HANDS FOR 20  
SECONDS**

**PLEASE DON'T TOUCH**

EYES

NOSE

FACE

**By reminding others to do their  
small part, we can help stop the  
spread of the illness.**
