

SOLUTIONS FOR CONSUMER INDUSTRY

AUDIA ELASTOMERS
An **AUDIA** Company

Grasp What's Possible.™

BEST-IN-CLASS QUALITY.

When your consumer applications require unique performance specifications, Audia Elastomers can deliver tailored solutions to meet and exceed your expectations.

Audia Elastomers TPE provides high quality products for a variety of consumer goods used in a variety of applications like kitchen tools, appliances, toys, sports & leisure goods. They come in super soft to very high hardness with excellent haptics and damping properties. These products meet global regulatory standards while introducing new cost-effective material and processing options. They are easy to color, conform with FDA requirements and offer excellent mechanical properties and easy processability.

Want to learn more? Contact the Audia Elastomers team and together, let's grasp what's possible.
