The Center for Organ Recovery & Education (CORE) is one of more than 50 federally designated nonprofit organ procurement organizations (OPOs) in the United States, serving more than five million people in western Pennsylvania, West Virginia and Chemung County, New York. CORE coordinates the recovery and matching of organs, tissues and corneas for transplant within our service region, and works tirelessly to create a culture of donation within the hospitals and communities we serve. CORE's mission is to **Save** and **Heal** lives through donation, ultimately ending the deaths of those on the transplant waiting list, while maintaining integrity for the donation process, dignity for the donors, and compassion for their families. CORE is a winner of the 2019 Malcolm Baldrige National Quality Award, a presidential award that recognizes nonprofits for their innovation and excellence.
