YOUR WORK WITH US
CAN SAVE LIVES.

Our work is important and fulfilling.

CORE performs the clinical evaluation and medical management of organ, tissue and cornea donors. We lead and assist in hands-on procedures inside the ICU and operating rooms. We manage a comprehensive support network for donor families. We implement public education programs to increase the rates of registered donors in PA and WV.

CORE could not do any of these vital functions without a dedicated and driven staff who are as committed to saving lives as they are to honoring the gifts of donation with integrity and compassion.

The Center for Organ Recovery & Education (CORE) is one of 58 federally designated not-for-profit organ procurement organizations in the United States. We work closely with donor families and designated healthcare professionals to coordinate the surgical recovery of organs, tissue and corneas for transplantation. CORE also facilitates the computerized matching of donated organs and placement of corneas. With headquarters in Pittsburgh and an office in Charleston, West Virginia, CORE oversees a region that encompasses 163 hospitals and almost 5.5 million people throughout western Pennsylvania, West Virginia and Chemung County, New York.
